

Robotic thirst quencher

Robimat X series

Benefit from our strengths

Looking good on every site.

Whether in the office or in public areas cold drinks vending machines from Sielaff are suited to any location and are highly profitable. The machines in the Robimat X series guarantee impulse purchases and ensure sustainable customer loyalty and turnover. Their modular concept is equally sustainable: they are manufactured from 99.7%* recyclable materials.

For these reasons Sielaff machines should always be your first choice. Offer your customers an increased selection of products that are well displayed behind a large impactful sales window. These machines will also be pleasing to the eye as they integrate perfectly into your existing machine line, thereby attracting customers and delivering turnover. There are two variants to choose from: EC and RB-variant (with RAL-operator panel).

Every cold drinks machine in the Robimat X series is well equipped for the perfect presentation of your product range: First-in-first-out principle, full size glass front with perfect product illumination, the Sielaff lift system for gentle dispense. There are almost no boundaries when it comes to selecting products and filling these vendors.

Versatile sales aptitude on a large scale.

Behind the large glass front, LEDs illuminate the interior which houses for example 5 shelves with sufficient capacity for up to 405 x 0.5 l PET bottles – spectacular product delivery in under 10 seconds.

A large product range to entice customers.

With nine to ten channels per shelf (Robimat XL) or seven to eight for the Robimat XM, Sielaff's X series provides huge capacities, sufficient to satisfy any site.

** of the total machine weight*

Split metal shelves for ergonomic filling

Ergonomically favourable delivery height

Virtually shake-free transportation of products to the delivery area

“Made in Germany” means quality.

Sielaff's vending machine solutions are based on an intelligent modular concept and designed to suit individual sites and your own needs. They also provide high reliability coupled with outstanding value for money.

Less is more: Particularly quiet.

The innovative Robimat X series boasts virtually silent product delivery.

Today, security is a key factor on many sites.

Vandal-resistant and tamper-proof delivery outlet, impact-protection panel to protect the glass front without restricting the view of the products: With the High Security version you are always playing it safe. Robimat XL is even available for outdoor sites.

Talent and Technology

General facts

- Sells glass bottles, PET bottles and cans
- Takes products from 200 to 910 grams in weight with a diameter up to 72 mm; maximum bottle height 270 mm
- Perfect for a vending machine line
- Personalised design possible for door and side walls
- The control board is installed in the sliding side drawer for ease of accessibility
- Modular structure – particularly easy to service and recycle

Energy

- Internal LED-illumination
- Insulated glazing to front door with laminated safety glass

Cooling

- Low maintenance, hermetically sealed cooling system with electronically regulated, high-performance push-in chiller unit
- As standard HFKW-134a coolant with a GWP of 1430
- Optional: HC refrigerant R290 with a GWP of 3
- Optimum refrigeration of the internal area due to the air flow on both sides

Product Delivery Pocket

- Made from high quality plastic
- Easy-to-clean; can be removed with one hand
- Dishwasher-proof

Shelving

- Narrow shelves available as an option for higher capacity

Robimat XM

Standard:

- 7 selections per shelf
- For product diameter up to 72 mm

Narrow:

- 8 selections per shelf
- For product diameter up to 62 mm

Robimat XL

Standard:

- 9 selections per shelf
- For product diameter up to 72 mm

Narrow:

- 10 selections per shelf
- For product diameter up to 62 mm

- Upper drawers tiltable
- Transparent product retention clips, giving an unrestricted view of the products
- First-in-First-out dispense principle
- Automatic shelf recognition

Product Delivery

- Products delivered quickly and quietly in less than 10 seconds
- Products delivered to the delivery unit with virtually no shaking
- Sensor in the product basket monitors sales process
- Illuminated product delivery at an ergonomic height

Payment Systems

- Easy integration of payment systems

Amazingly Secure

Security at the highest level.

There are many reasons why Sielaff machines stand for sustainable vending: technical know-how, intelligent innovations, products to suit the marketplace, ease of servicing. Or perhaps simply that there is a machine specification for every situation and location.

Indoor locations are sometimes subject to vandalism and where a rugged design is the prerequisite for successful vending, the Robimat X series with High Security is the right choice. These machines offer impact protection, metal keypad, coin insert slide and coin return drum to prevent manipulation, locking lever protection, security frame with side lock (optional) – ideal for schools, railway stations and airports.

At Sielaff however, security does not make servicing difficult. The impact protection is quick and easy to open for cleaning.

Standard

- Hinge protection
- Coin insert slide and coin return drum
- Re-inforced locking lever protection
- Metal keypad

Optional

- High security frame and side lock for when the machine is not protected by a housing
- An additional back panel can be fitted to a machine which is not positioned against a wall: improved security and extra branding opportunity

Robimat XL RB High Security

Robimat XL EC High Security

High security frame with side lock

At home outdoors

The certified outdoor versions carry the GS-mark (as do all Sielaff vending machines) and from the first glance its design and features will impress.

Superbly equipped, this version with its high security features, fulfils the regulations to comply with protection class IP24 for outdoor use, and is weather resistant to -20°C.

An overview of the advantages

- Impact protection
- Rain roof and water spray protection
- Coin insert slide and coin return drum
- Reinforced locking lever protection
- High security frame with side lock
- Laminated safety glass panel with light filter
- Circuit breaker
- High-performance chiller unit, heating ("Frost monitoring function", internal temperature is kept above 0° C)
- Rear panel (additional advertising opportunity)
