

Coffee pleasure with style

Siamonie Smart

Benefit from our strengths

Black-White

Rich black contrasting with brilliant white!

Behind this striking facade are brought into play well thought out technologies inside the machine and a passion for its features in the detail.

Deftly solving the requirements of the office environment: economically and effectively. Smartness itself.

Coffee pleasure at its best

Bring change to your grey everyday office life. Sielaff's compact OCS-machine combines a stylish look with taste satisfaction and technical perfection.

The high quality **Siamonie Smart** slots seamlessly into the Siamone series. The family-look is emphasised by its design, highlighted with its glass and painted surfaces.

With its special look, inspired by bold contrasts, the **Siamonie Smart** is sure to turn heads.

Just as exceptional as its design is the diversity of its spectacular coffee blends. Whether it be a robust espresso with a velvety crema to a creamy cappuccino and latte macchiato – all to the highest level of coffee bar quality.

The best coffee experience for the office and meeting rooms without high expenditure

A strong espresso, coffee or cappuccino

Coffee bar quality

Benefit from our strengths

Indulgence in the office.

The Siamonie Smart ticks all the boxes in the office environment: It is striking, economical, effective and successful. Coffee pleasure tastefully designed for the office and meeting room. Without great expense whenever you want.

Streamlined design

The Siamonie Smart scores with its low build-height. It is available in two variants. The OCS and the OCS XL with bean sight glass. Filling is easy, the product container covers enable the machine to be filled even if located underneath a wall unit. Cleaning is simple and servicing and operating uncomplicated.

Quality guaranteed

Well thought out technology and high-value components are features of the Siamonie Smart. Its internal workings are aligned exactly to your requirements, to take care of your coffee with the utmost reliability. Whenever you want to enjoy coffee, "Made in Germany" takes quality and functionality to a new high level.

Great taste

Taste cannot be disputed. The integrated watertank with filter cartridge, available as an option, makes operating simple and does not influence the capacity of the fill products. All beverages are also available in coffee pot size, a few portions at a time. The Siamonie Smart knows no limits when it comes to good taste.

The high-quality Siamonie Smart fits seamlessly into the Siamonie Series

This practical espresso machine provides the highest level of coffee enjoyment

Perfect for the office and vending environment – reliable and easy to clean

Base cabinet

Functions and Technology

Prestigious technology provides the best taste

The passion for quality and technology is evident from the first glance. Every sip of coffee delivers the taste that comes from Sielaff's experience and creativity.

Horizontal brewer

The **innovative horizontal brewer** developed by Sielaff with its insulated brewing chamber guarantees quality. Depending on the drink, coffee throws from 6 – 14 g are prepared in the brewer using **Sielaff's pre-infusion technology**. Sophisticated technology ensures an extremely clean and secure sealing using O-rings. Functional, easy to remove and clean. Microfilter-crema filter compliment this well-thought out technology.

Grinder

This high-performance conical grinder delivers a **quiet** but nevertheless **powerful grinding process**. The coffee beans are gently processed until the required grind is achieved. For optimum coffee pleasure from Espresso to French Press. The well-balanced, even grind guarantees perfect development of aromas and flavours. Together with great functionality this grinder has an impressive operating life, processing approx. 2,000 kg of beans.

Innovative display

The **7" high resolution touch display** with **LED-background illumination** is clearly visible from all perspectives. To attract attention on site, its high storage capacity enables the playing of slide shows and videos.

Keyless operating system

The Siamonie Smart OCS can be **filled** and **emptied without using a key**. A control indicator showing the fill status of the bean containers appears automatically on the display and shows exactly which container needs re-filling.

Machine interior

A tidy and clearly-defined machine interior epitomises the Siamonie Smart. It is easy to clean and uncomplicated for servicing. All components and assemblies are easily accessible. Reliable technology from experts characterises the Siamonie Smart.

Accessories and optional extras

Second grinder

For even **more coffee choices** a second grinder is available as an option. The **specific requirements** of various types of beans can be accommodated with bespoke grind setting. Tailored to coffee and espresso specialities the grind is set precisely and easily with a slewing ring. Sielaff really does understand the individual coffee experience.

Grounds container and direct drainage

The option to process **ground** and **drainage** into the base cabinet ensures **non-stop operation** on the higher frequented sites. Residual water and coffee cakes are disposed of discreetly.

Payment module

The **payment module** provides the convenient solution in the vending sector. A coin mechanism can be installed as required. With MDB-connection. The payment module is available in RAL 9005 – jet black.

Customise your own personal Siamonie Smart with suitable accessories. At Sielaff all our products are proven, so that using the machine is a pleasant experience.

Integrated coin validator and key switch

For daily **operating** in the public sector the Siamonie Smart OCS XL can be fitted with a **coin validator** and **key switch**. An integrated and spacious cashbox is complimented by a key switch for free vends. For a greater demand for that perfect coffee, there is the facility to switch over to pot dispense to deliver the experience of coffee pleasure during break times or in meetings.

Water tank

The water tank with its 3.5 l approx. capacity makes the Siamonie Smart **independant** of a **water connection**. The volume of instant products however remains **consistently high**. An integrated water filter in the water tank guarantees only the best coffee quality. Combined with **level monitoring** the watertank can be removed and filled effortlessly.

Water filter

A water filter ensures consistent **water quality** which in turn ensures **perfect** coffee in the office – irrespective of the quality of the local drinking water. The filtering performance of the AquaAroma Crama from Brita with its aroma-ring is adjusted to suit the local **carbon hardness**. Up to 1,470 cups of consistently good quality coffee is therefore made possible. In addition the water filter protects the machine from limescale.
