

Everyone's favourite Café

SiVend HG 20 Trend

Benefit from our strengths

Either from a Barista – or simply from SiVend HG 20 Trend

The innovative SiVend HG 20 Trend hot drinks machine serves real coffee and chocolate speciality drinks to quality barista standards within a few seconds.

Whether it be a creamy cappuccino, classic espresso, quality bean or instant product, this machine delivers variety and quality to equal any traditional Italian café.

Easy to use, Sielaff's SiVend HG 20 Trend has something to suit every customer's requirement and personality. The operator panel on the door is available in stainless steel or RAL-colour to match the housing: Your SiVend HG 20 Trend will look just perfect in your business. To perfectly enhance the line design of existing machines an optional decorative panel with LED stripe is available for all designs.

Another notable feature is the decal design for the advertising panels: The individuality of the SiVend HG 20 Trend gives you the competitive edge.

Individual and intuitively effective

20 illuminated selection buttons behind glass for products or pre-selections boast high resolution and exceptional picture quality. The SiVend HG 20 Trend offers pure originality, which delivers only high turnover. Its possibilities are endless.

An attractive proposition to appeal to all

Over 50 pre-defined, freely adaptable recipes as well as up to 40 selection button combinations which can be assigned as required: A variety of drinks that your customers will love, wherever the location.

Flexibility? Capacity? No problem with SiVend HG 20 Trend

The double cup holder offers maximum capacity and absolute flexibility for different cup types and sizes: Technology from Sielaff – always one step ahead.

Coffee pleasure begins with quality in the detail

The machine boasts high performance components from the HoReCa sector such as boiler, brewer and grinder to ensure that drinks are served to barista standards.

Enjoy variety and quality in the finest Italian Café tradition

The double cup dispense mechanism offers the best possible capacity

Appealing, large capacitive buttons located behind a full size glass panel.

Prepared hot and hygienically served time after time

The closed dispense carousel ensures that products are always delivered hot and hygienically to the customer; whether in a vending cup or their own. The ingenious lighting stripes uses an intuitive traffic light system to show the status of the product dispense process.

Easy to transport and install

The SiVend HG 20 Trend stands directly on its own height-adjustable feet. As soon as it arrives, this machine is ready to generate turnover almost immediately.

Talent and Technology

SiVend HG 20 Trend operator panel

- 20 large illuminated decals behind glass
- Easy-clean, complete panel made from safety glass
- Easy to replace product decals
- Large area for ingredients list

Espresso pump

- Vane pump, 230 V
- Flow rate: 100 litres / hour
- Water dispense per product is monitored electronically

Espresso brewer

- High-tech PEEK-brewer
- Coffee throws from 6 to 14 grams
- Insulated stainless steel brewing chamber
- Long-life, hydraulically inflatable seal
- Double press
- Microfilters for best crema
- Brewing pressure can be freely adjusted for each product
- Sialaff pre-infusion technology freely available for all beverages
- Software-controlled water level monitoring

Innovation sets standards

Sometimes it takes a special type of innovation to turn heads. Previously, vending cups had to fulfil specific requirements. This made the cups expensive and “jams” could occur, causing machines to breakdown virtually on an almost daily basis. Sialaff has put an end to this: with its own cup system.

(BAM) incl. pre-set cup holders for various cup diameters. The cups are held securely which prevents from jams.

Even humidity, pressure or compression no longer cause inevitable breakdowns. With sustainability and ecology in mind, programming can also accommodate the customer's own mug or to-go-cup.

Smart technology makes a difference – especially when it is from Sialaff.

Product variants

SiVend HG 20 Trend Instant

SiVend HG 20 Trend Espresso
